

REPUBLIC DAY

JANUARY 26, 2019

Republic Day is the most important day in the national calendar after Independence Day. In fact it is more important, for real freedom comes from Democracy and Republic. In an Indian Republican country we can call ourselves truly independent. The President of the Society hoisted the tri-colour amidst the singing of the national anthem. A sober programme followed and it was enjoyed by all. A skit was performed. Our President reminded us of the endeavours and achievements of our great leaders whose contributions have given us this day. We are proud to be one of the biggest Republics in fact the largest in the true sense of the word. We rank with USA, Australia and Canada in the stature of democratic national government. Sweets were distributed at the end of the program.
