We say this is your timely window to Regency. And so it is. It comes to you when you want it and there are answers to. The period between September 2023 and May 2024 has been one of activities, learning and assimilating as usual. In brief a period of fulfilment. This year the Sports Meet was a very big event besides the Annual Awards Conferral. These events were not just for the sake of events but they fetched Regency honour and praises like never before. It is almost two years since our Silver Jubilee and Regency is certainly walking on the Silver Trail which will gradually transform to the Golden one. Another very colourful, musical event was the Spring Symphony 2024. More surprisingly because it was performed by the little ones of the Kindergarten at Kangaroo Kids. It was spectacular indeed. Let Regency Times occupy your spring and summer of 2024 and soon the next one will be at your door. We are resolved to cross every milestone and continue to move on.
