

The Bull's eye, that's it: March 29, 2023

The academic year starts with the shooting Competition. It is one activity that teaches a student to develop high concentration and keep focus in tact, it is helpful and generates the practitioner to inculcate a vigour and resolve. Shooting is a military skill. It however endows the person practicing it to develop a sharp focus, and concentrate on the focal point. It improves concentration. While children practice to shoot they actually are improving their academic concentration. There were 32 participants, eight from each House, Red, Blue, Green and Yellow, four girls and four boys. It was an exciting competition and the shooters aimed at their target with alacrity and steadfastness. The competition was divided into two groups, Girls and Boys
